No. 17

Hon. S. Low Says Govt. Being Un On Sound Business Principals

Contented That Currency Of The Country Should Be Under Control Of The Government. And That The Bank—Rev. Roy Taylor, M.L.A., Of Fincher Creek, Said That One Of The Objects Of The Government Is To Get Money Out Of Clutches Of Financiers—W. Sharpe, M.L.A., Stated That Two Courses Are Open, Either To Borrow Money Or Raise Taxes.

An audience which almost filled the Capitol Theatre on Wednesday night of this week greeted Hon. Solon Low, Provincial Treasurer, Rev. Roy Taylor, M.L.A., for Fincher Creek, and W. Sharpe, local M.L.A., Capt. Robert J. MacRae, president of the Grande Prairie Social Credit Association, was in the chair.

H. W. Rogers of Beaver Lodge, was also on the platform.

Each speaker was given a most attentive hearing, the audience being there to listen and learn.

It was almost midnight when the meeting closed.

Hon. Solon Low
Hon. Solon Low, after referring to the wonderful time he had for a few days shooting in the western area, lost no time in discussing the issues of the province.

He observed that the same as you hear a man ridiculing Social Credit you can come to the conclusion that he does not know much about it, adding that he came to discuss the issue without any bitterness.

"Our great aim," said the Provincial Treasurer, "is to solve the money problem."

Continuing, Mr. Low, holding in his hand a dollar bill, said that it states what the Bank of Canada was prepared to pay on demand, adding that the Bank of Canada is just the same as any other bank in Canada.

Confidence makes a dollar valuable. There are about \$400,000,000 of bills in circulation. The question is, "Where do they come from?" The answer is, "The banks."

The speaker then pointed out that representatives of the banks came into his office and he asked them to show him the dollars and cheques that they were circulating, and they replied by paying wages and salaries, every dollar in circulation, he observed the Provincial Treasurer, "is circulating in the hands of the people."

Speaking on Social Credit, Mr. Taylor said that the party desired a clean right, and if such a thing did exist, that they would do so with no apologies to anybody.

One of the objects of the government was to get the money out of the hands of the banks, and he pointed out that the banks had created some years ago and had been given a special privilege, that they were not to be taxed, and that they were not to be controlled by the state and not by the federal government.

Mr. Taylor, who added that the old capitalist system was tottering to its knees, said that he was not going to let the election on the money and time of the people and not on road work and other things.

The speaker then quoted from Major Heston's speech in which he referred to the special privilege of the banks, and he pointed out that the banks were not to be taxed, and that they were not to be controlled by the state and not by the federal government.

Mr. Low, continuing, stated: "We have laid down the gauntlet and we say, prove us wrong. If you can, we will prove you wrong. If you cannot, we will prove you wrong."

The Provincial Treasurer made it quite clear that the banks of the province were not to be controlled by the state and not by the federal government. They can render a no-federal service, but they cannot be controlled by the state and not by the federal government.

He contended that the currency of the country should be under control of the government, and that the banks should be controlled by the state and not by the federal government.

Mr. Low, continuing, stated: "We have laid down the gauntlet and we say, prove us wrong. If you can, we will prove you wrong. If you cannot, we will prove you wrong."

The Provincial Treasurer made it quite clear that the banks of the province were not to be controlled by the state and not by the federal government. They can render a no-federal service, but they cannot be controlled by the state and not by the federal government.

DAYS OF CHAMPLAIN RECALLED

In a ceremony romantic and full of color, Lord Tweedsmuir, Governor General of Canada, was installed as Grand Master of the Order of the Good Time of Nova Scotia at Annapolis Royal, N.S., on Wednesday, Oct. 13.

The famous society was founded by Champlain in 1604 at what is now Annapolis Royal and is therefore the oldest club on the continent. Membership now approaches the half million mark, distributed all over the world. This picture shows a scene from the installation ceremony as he cut the cake of good cheer and served sweet cider to the crowd, which included several Indian Chiefs. Left to right: Hon. Angus I. Macdonald, Premier of Nova Scotia; Lord Tweedsmuir; and Lieutenant-Governor Robert Irwin.

Badminton To Open At Grande Prairie Sunday, Oct. 24th

The Badminton Club will open on Sunday, October 24, and will continue through the season as follows: Tuesday, Thursday and Saturday afternoon and evening and Sunday afternoon.

New members will be welcomed. Membership fee \$8. and for out-of-town members \$10.

Mast For CFGP Arrived Grande Prairie Tuesday

The 250-foot mast for CFGP, Grande Prairie's first radio broadcasting station, arrived from Ontario on Tuesday.

Mr. Leland of Montreal, who will erect it, arrived in Tuesday's passenger train.

The transmitting equipment arrived last week and will be assembled. The building is nearly completed and will be ready for the installation of equipment, probably by the end of the month.

The station will be on a frequency of 1200 kilocycles, with a power of 100 watts.

Opening Of CFGP Promises To Be Historical Event

Says H. W. Brooker, Manager—Lieutenant-Governor Will Be At The Opening—Many Others From The Capital City Are Making The Trip For The Occasion.

Everything is going along splendidly and the opening of the broadcasting station promises to be a very eventful and historical event.

In the above words Manager H. W. Brooker forecast the opening ceremony which takes place on November 2.

Mr. Brooker further stated that the Lieutenant-Governor would surely be in attendance.

TWO RIVERS

HOSPITAL DANCE WENT OVER WITH A BANG!

TWO RIVERS.—The dance in aid of the West District Hospital, held at Halcourt, went over with a bang. The house was full all evening, while the ice cream and lemonade section did a roaring trade. Everyone seemed to enjoy themselves, and showed by the time the dance lasted, 4:30 a.m.

Don't forget the dance and side-shows to be held at Beaver Lodge Friday, October 15, also in aid of the hospital.

The next United Church service at Halcourt will be held Sunday, October 24, at 9 a.m.

Miss Vernon reports a very interesting time at the Teachers' Convention at the Prairie.

SEEN AND HEARD

Walter playing the fiddle at the dance.

Lee Longson with a load of school teachers.

Lawrence Lock in his underwear at 10 p.m.

Amberose packing a 90-pound anvil for a 50-cent bet, but lost the bet!

Whittford tanking water.

A bear roaming round the lake.

Well, folks, this is all.

FAREWELL

By "Jack Pine"

I am leaving very soon for Liverpool, England, to stay, if that is possible. I am very glad indeed to have been a correspondent on the Two Rivers district, and I hope I have covered the local news in all fairness. But don't think I will lose touch with the Peace River country—far from it, as I am sure to send the editor a two-year subscription.

I may write at odd times of dolours in the Old Country that I think will interest you. I bid the people of Beaver Lodge and district a very warm adieu in both their undertakings, namely, the drive to the West District Hospital and the Monkman Pass Highway.

I wish to be remembered to Mr. and Mrs. Art Patrick of Nipaw, also to the many sporting partner and friend, Mr. Tom Williams of Halcourt (Lone Tom).

So, folks, I bid you one and all a very mild and a bumper crop for 1938.

Yours very truly,

G. SPRUCE

WEMBLEY NEWS

WELFARE CLUBS ACTIVE WITH SUPPER AND PLAY.

WEMBLEY, Oct. 12.—The Annual Chicken Supper will be put on by the Women's Welfare Club, Wembley, at the Wembley Hotel, Wednesday, October 27, at 6 o'clock. Short program in aid of the churches. All are welcome.

The Welfare Club is sponsoring the play "The Folks Next Door," a comedy in three acts, which promises to be a real laugh with for posters and notices of date. The proceeds of this play are in aid of the Christmas tree and welfare.

The ladies would like to know that the cost of this play is willing to take the play outside of town and will be glad to accept any invitations they might get. Please get in touch with Mrs. J. G. Galt, secretary.

CHARLIE CHAPLIN IN TRANS CHARACTER TO DISAPPEAR FROM STAGE.

A little tramp with heavy pants and

VALHALLA CENTRE

CHICKEN SUPPER WAS VERY SATISFACTORY.

VALHALLA CENTRE, Oct. 12.—The sky's the limit when it comes to having a meal at a chicken supper, but somehow as you everyone else doing it you find your own plate goes high.

This also was the case at the chicken supper sponsored by the men of the Valhalla congregation. Each guest (and there were hundreds) came laden back with a great satisfaction—not to mention a vast amount of food.

Mr. Volpe, president of the church, welcomed the guests, explaining that the money was to go toward the completion of the patronage and mentioned the church would welcome any donations from those who wished to give. He stated that from two to three hundred dollars were still necessary. He then introduced the soloist, Mrs.

Lo. Tofeland and the speakers, Olive Finnie and Mr. Turner.

Financial standpoint the supper was assuredly a success, the proceeds being over two hundred dollars, and as food, etc., was donated there were comparatively few expenses.

JOSE BADLY HURT.

Mr. John Meland had rather a bad accident last week, stepping on the back of a horse board, the other end flying up and cutting his nose badly. Several stitches were necessary. When the accident occurred he was at work painting Mr. Ole Hegstad's new residence.

This house now is nearly completed, with all modern fixtures, including wiring for electricity. There is a well in the basement and the house is on the slope of a hill and has a grand view of the surrounding country.

CARPENTERS BUSY.

Speaking of new buildings, nearly all carpenters are busy this fall season. Johnnie Brummett and Pete Melhus

have added the finishing touches to the interior of Leonard Neppard's new house.

Mr. Roll is completing Mr. Swan's house, while Mr. Neppard is getting ready to house two trucks, and Mr. Olund has finished the addition on the north side of the big house and is doing work at the Horton garage.

Mr. Neppard's house has been taken the semblance of a finished house. The carpenter's business is to be done however.

CHRIS HORTE CELEBRATES SIXTIETH BIRTHDAY.

There came last night a birthday in Chris Horte's life from here on, at least such was the case last Sunday when with numerous friends and relatives present he celebrated his sixtieth birthday anniversary.

Had he been going one way at the time that Sunday and then changed his mind to turn around it would have been impossible as a tightly was the crowd packed in.

Chris Horte is an oldtimer and one of the Valhalla district boys who spent over a third of his life here.

The Facts About Banking in Canada

Reproduced from the Fifth Broadcast in a Series by Vernon Knowles for the Chartered Banks of Canada and Delivered Over a Province-Wide Network of Alberta Stations on Tuesday Evening, October 5th, from 8:30 to 8:45.

Shows That Banks Have Increased Credit by \$227,000,000 Since 1929 . . . Alberta's True Wealth More Than Offsets Albertans' Debt. Deals With Money, What it Is, Where it Comes From and How it Works . . . Canada's Currency and Credit Controlled by the Dominion Government Through the Bank of Canada . . . Points Out Question of Who Owes and Who Owns.

YOU have heard that ordinary banking business is one thing, and credit something else. The idea seems to be that the ordinary business of banking can go right along without hitch, while banks can be forced at the same time, to grant extraordinary credit without limit regardless of assets or values.

Not only is that impossible, but actually it could have but one result: the ruin of the banks and of the country as well.

You hear that when banks have to pay anything, they merely issue their own cheques and it costs them nothing. It is not true. It just can't be done. Like you, a bank can only pay what it owes with money which has to be earned in the real world.

Now I shall answer two more absolutely false impressions which I find rampant throughout Alberta. The first is that, since 1929, Canada's Chartered Banks have reduced the total volume of credit by \$766,000,000. The second is that Alberta has only twenty cents on the dollar to meet her debts.

Regarding the \$766,000,000 it is even suggested that the Chartered Banks deliberately and willfully reduced the money in circulation to that extent in order to gain some selfish end. If you were told that the bankers refused to sell bread, it would be about as sensible as the story that bankers refuse to make loans to responsible borrowers. Banks derive their chief revenue from loans and to say that they willfully withdraw credit by the Hundreds of Millions is equal to saying that they are in the habit of cutting off their nose to spite their face.

Our critics have fallen into an error that is quite understandable. They have looked at one column of figures in the statistics published by the Bank of Canada, without looking at another column where they would have found their answer. It is quite true that the total of commercial loans shows a large reduction, but it is also true that investments in bonds show a large increase.

What is the explanation? Simply that, with much-reduced business activity and lower prices, our customers use less money. For example, when wheat is worth say \$1.50 a bushel it takes \$150,000 to buy one hundred thousand bushels. But, if wheat were at fifty cents a bushel, it would take only \$50,000 to buy the same amount of grain. Owing to the difference in price the same amount of business can be done with \$100,000 less money.

On top of that is the uncertainty that comes with depression and the hesitancy of people in business to commit themselves with their usual confidence. They go on a hand-to-mouth basis. They do not want loans in anything like the amounts they want in normal times. Banks, however, cannot afford to have their funds lying idle and earning nothing; therefore, they are driven to invest much more heavily in bonds.

The earnings a bank gets out of a bond are much lower than come from an ordinary loan. Wouldn't you, if you were a banker, prefer to make loans rather than put your money into bonds?

What are the facts? The total of loans outstanding and money invested in securities by the Chartered Banks, at the end of July of this year, was \$227,000,000 greater than in July of the boom year 1929. Money invested in Government and other bonds is a loan to a Government or a Corporation just as much as an advance to a farmer, merchant or manufacturer is a loan to him.

Since 1929 Canada's Chartered Banks have actually increased credit by \$227,000,000. This completely breaks down the story that we have heard decreased credit by \$766,000,000.

Now as to that second false impression: The general proposition that Albertans have \$80,000,000 in the bank and that they owe \$100,000,000 is just one of those things that sound plausible but present a clear misrepresentation. Even assuming that the figures are correct, the \$80,000,000 is not all that Albertans possess.

To that figure you must add their individual possessions and the wealth and potential wealth of resources which stand behind your provincial borrowings. Consider, for instance, the true value and the potential productive worth of Alberta's coal mines, oil fields, tar sands, farms and forests.

If you add to your \$80,000,000 in deposits the true value of the assets which stand behind the \$100,000,000 you will find a very substantial balance in your favour.

It is said that because there is \$80,000,000 on deposit in Alberta and debts total \$100,000,000, there is only twenty cents to meet every dollar of debt. Let us ask: "Who owns the twenty cents and who owes the dollar?" If you have \$200 in the bank and I owe somebody \$1,000, then you have twenty cents for every dollar I owe. Can I take any part of your two hundred to pay off any part of my thousand? But the critic says: "No, that is too wide a disparity between deposits and debts and that gap should be closed."

Right, let's close it — Now, we'll say that I still owe the \$1,000 but you have \$1,000 in the bank. The disparity has been wiped out. You now have a dollar for every dollar I owe but still what right have I to take the thousand you have, to pay to somebody else the thousand I owe?

If Albertans have \$80,000,000 in bank deposits in this Province it is money belonging to individuals. It is their own. Debtors, whether they be individuals, a Province or a municipality, or whoever they may be, cannot expect to use your money to pay their debts. If you have money in the bank the very next time anybody tells you that there is twenty cents in money in the banks in Alberta to meet every dollar of debt, just ask the man who tells you that who does he think your money is going to pay.

We promised to tell you a few things about money and to explain away some of the strange misapprehensions about it.

We shall try to tell you in a practical way, what money is, where it comes from and how it works. There is a fairly widespread idea that there are not enough bank notes or "tickets" around — and that, if there were more, we would all be better off.

If I say that I would like some more of those bills, I am really demanding a larger share of the bills that now exist, perhaps some of those that you have, for you can have in circulation at any one time only as many bills as the volume of business calls for. The moment you issue bills faster than that, you get inflation.

After our first broadcast I received a letter from an Alberta woman who lived in Germany through the inflation. I would like to read to you what she says: "Why not tell Alberta people about conditions in Germany during the inflation — this talking about money being printed to meet the needs of the people is getting somewhat of my mind worked through the entire trying times of 1923 and I could quote you some startling examples created through hyperinflation banking. At one time I bought an overcoat for the staggering sum of Thirty-two Billion Marks. I have heard farmers speaking in the lobby of a bank, having sold their produce for One Thousand Marks, and one o'clock and, about an hour later, finding that the very same produce required twice, often three times the amount of money to repurchase it."

In Germany at times during the inflation it took an armful of paper money to buy a loaf of bread. A money presentation was made to him, giving him the fulfilment of those present and his many happy returns of the day.

MRS. FOSBERG'S DEATH DEEPLY REGRETTED HERE.

Deep regret was expressed by Valhalla people on hearing of the death of Mrs. F. Fosberg, who died at her home in the city of Edmonton on Tuesday, October 13.

She was a favorite of the Valhalla people as well as of those in the neighbourhood in which she lived.

Her death was a great loss to the community.

Funeral services will be held at the Valhalla Centre on Friday, October 15, at 2 p.m.

The new plan at the hall will be a great help to the music of dances there.

LARGE NUMBER AT SHOWER FOR MR. AND MRS. OLSON.

A large number turned out to the shower for Mr. and Mrs. Vic Olson, held in the home of Mr. and Mrs. Olson last Saturday evening.

During the evening a large number of guests were present and the shower was a great success.

ALBRIGHT NEWS

W.A.O.W. SUPPER, BIG SUCCESS.

ALBRIGHT, Oct. 12.—A very large crowd of hungry people came and did justice to the W. A. O. W. supper held in the hall last Monday.

Although the room of children and brought all the meat in the store, everybody seemed to go home well filled. There had been a community sing-song while the tables were being cleared away. Some of the ladies of the W. A. O. W. were very clear and

There speaks the voice of experience. No greater outrage has ever been perpetrated on a people than that of wild inflation. It destroys their assets. If you are in the twilight of life or incapacitated but, during the years you were able to work, had put aside a little for the rainy day, you lose. Perhaps you bought some bonds and the income from them is all you have to live on, perhaps \$25 or \$50 a month. Then one day, as in Germany, "tickets" are issued in large quantities, without any loss in value, and without regard to the volume of business.

Your \$25 or \$50 a month, through the issue of new tickets, is reduced to what it bought before. If you are a person with a small fixed income you cannot buy enough to live upon.

Particularly does this apply to a family whose breadwinner has died, leaving only the proceeds of an insurance policy. They seem to have at least some money, but it is not enough to live upon.

When you hear the tale of the people who couldn't travel on a railway train because there were not enough "tickets" printed, remember that the financial system, in exactly the same way as a railway, lives by selling a service; anyone will realize that there will be no heavy tax to provide all the "tickets" necessary so long as something of equal value is received in exchange. As a matter of fact in July this year, there were \$18,000,000 more "tickets" in the hands of the public — bank notes of all kinds — than there were in July of the boom year, 1929. And since July the "tickets" in the hands of the public have increased.

The story that, for their own selfish purposes, banks "monetize the credit of the people, is a completely false conception of bank operations. A bank does extend credit to an individual — or if you like it, monetizes his credit for him — not for itself. That is, the bank makes a loan to him on the strength of things which are his own and which he intends to sell later on and so repay the loan.

No one borrows from a bank unless he believes he will make a profit for the bank over and above the bank charges. The bank does, of course, collect interest or rental on the money loaned but the borrower's credit has been monetized entirely for his own use and benefit, subject only to a small fee for the bank's services.

Money merely facilitates indirect barter. If you have hogs and your neighbour has honey, maybe you don't want to take honey in exchange for your hogs. Perhaps you want coal or clothing and you cannot buy them at the store by giving honey for them. So your neighbour gives you money for your hogs — "tickets" — and with those "tickets" you buy the coal or the clothing you require as the case may be.

Now what is money? You and I have been brought up to look upon nickels, dimes, quarters and dollar bills as money — and they are for all practical purposes. Actually these things are really tokens — they are not wealth in themselves. They are merely the title to goods. They are worth only what goods and services you and I can get in exchange for them. That is why it is so important that nothing be done to debase the coinage of the country.

That is why there must be no manipulation of the issue of these things if their value is not to disappear.

To be a little more expert, as it were, it would be quite right to say

were well explained by Bernal Cunningham, who gave a very vivid picture of the type of country to be traversed, or the beautiful scenery all the while the road could be completed if they had the capital and the support of the government.

Don't forget the dance for the Monkman Pass Highway night at this week (October 15). Good music. They need our support so let's give it.

The new plan at the hall will be a great help to the music of dances there.

WHERE THE "MOUNTIES" GO TO CHURCH

This little chapel is the only one of its kind in Canada, possibly in the world. It is the chapel at the Royal Canadian Mounted Police barracks at Regina, Sask. The original building was erected in 1882, or rather assembled from marked lumber sent west from Ontario by boat and wagon and it was successively used as a mess, then canteen before, in 1897, at the request of the wife of the late Commissioner Herchmer, it was turned into an Anglican church for men at the barracks.

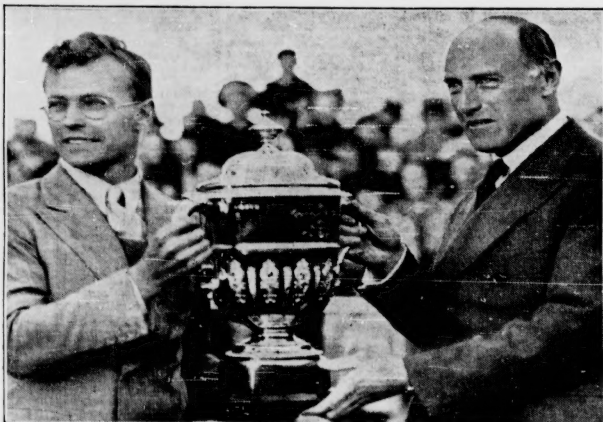

THE QUEEN MOTHER IN INFORMAL SETTING

Hes Majesty Queen Mary is shown in the Terrace Garden at Athlone, where she spent a week as the guest of the Earl and Countess Spencer, the latter shown on the left of the group. The Earl is shown beside the Queen Mother. Viscount Athlone and Lady Anne Spencer, son and daughter of host and hostess, also are shown.

JAPANESE INFANTRYMEN DISGUISED AS BUSHES

Detaining in front of a Chinese position, these Japanese infantrymen have ingeniously camouflaged themselves by using leafy boughs.

THE KING'S CUP AIR RACE WINNER

Charles E. Gardner (above left) flying a Pervet New Gull for the second year in succession won the King's Cup Air Race at the record speed of over 250 miles per hour. The race started and finished at Hatfield, with stops at Newcastle-on-Tyne, Glasgow, Belfast and Dublin. He is shown at the finish receiving the trophy from Viscount Swinton, Secretary of Air.

MUSSOLINI'S SON IN NEW YORK

Arrival in New York of Vittorio Mussolini, youngest son of the Italian dictator, was the signal for cameramen to get into action. The orator was not a trying one for Vittorio (shown above) as he is associated with an Italian film company and is in the United States to study the "movies."

RUSSIAN EXALTATIONS

Colonel: "No, no, I see of you. Don't promote me to the rank of General! I am so young and life is so sweet." — Il Popolo d'Italia.

Pipeless Organ at CN Ex. Bandshell

AT THIS year's Canadian National Exhibition one of the outstanding attractions was the daily public concert from the new Bandshell in the centre of the grounds where the Northern-Hammond Organ, an entirely new kind of organ using electrical impulses with no pipes or reeds, was featured; thus proving the organ now has other fields than churches and auditoriums or the home. This new instrument which is not affected by heat, cold or dampness, is the latest product of the Northern Electric Company's plant in Montreal.

DENTIST HALTS BANDIT GANG

Attempted robbery of a bank at Midland, Michigan, by three bandits was foiled by a crack-shot dentist, Dr. F. L. Hardy, who, using a rifle from his office window across the road, killed one man and wounded another as they attempted to flee. Three citizens, including the bank president, were wounded in the attempted hold-up. Picture shows Sheriff Charles Smith questioning Tony Chebaris, the wounded gunman.

EVEN AS YOU AND I

A few picture showing King Christian of Denmark taking his granddaughter, Princess Elizabeth, for a morning constitutional.

A SIGNAL LINK OF EMPIRE

Photo courtesy Trans-Canada Air Lines

Winging its epic flight from Ireland to Newfoundland, the great flying boat, the "Caledonia", was in touch with ground stations continually by radio.

Before rising from Botwood on the last leg of his journey, and all the way up the St. Lawrence to Montreal, Captain Wilcockson was in touch with St. Hubert Airport, where the very latest type Northern Electric radio transmitter is in use.

Photo shows Mooring Mast housing the transmitter. The Empire Flying Boat "Caledonia", mooring the mast as she commenced her return flight across the Atlantic. The Transmitter — note the telephone dial, indicated by arrow, for automatically "dialing" any one of ten frequencies — a recently developed feature designed especially for Airport use.

BOTTOM FALLS OUT OF KANSAS FARM

Nearly trapping a farm hand operating a tractor, this yawning hole opened suddenly in a wheat field near Fort Worth, in south central Kansas, and increased rapidly in size as huge chunks of dirt weighed several tons fell into the crater. When this air view was taken the pit was approximately 200 feet in diameter, less than 15 hours after the initial cave-in. Similar to the phenomenon near Buhl, Idaho, this freak of nature was believed due to the dissolving of limestone underlying the area. The water is of undetermined depth and the walls of the pit about 30 feet above water level.
